# Quick Survey Findings: 2018 Employee Perks

A National Business Group on Health® Publication

June 2018

## Purpose of the Survey

The purpose of this survey was to determine what perks employers offer their employees. The survey asks employers about a wide variety of perks, ranging from financial assistance perks to those more directed at an employee's overall emotional well-being. Sixty-eight members of the Business Group responded to this survey, although the number may vary from question to question.

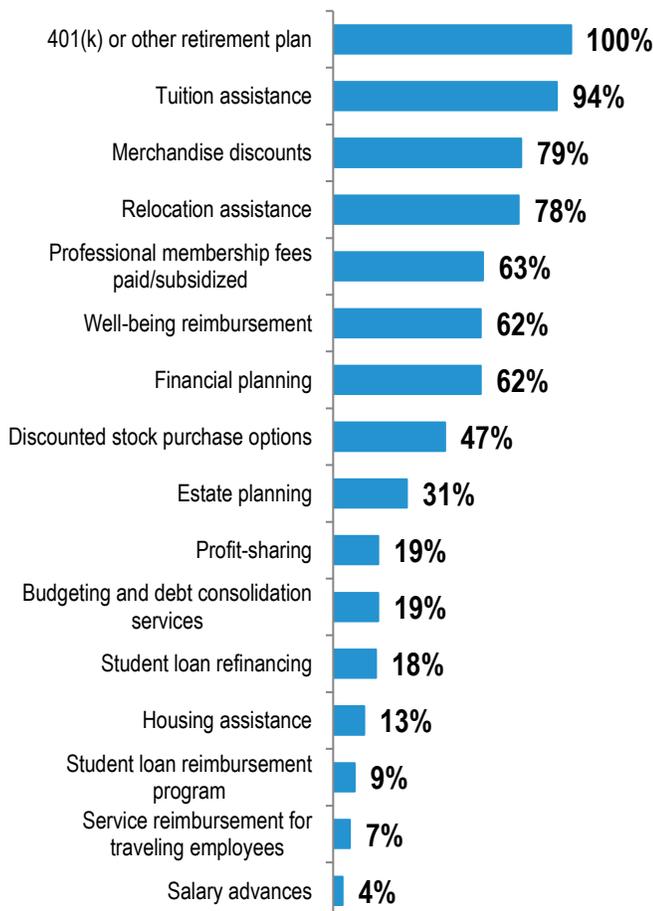

## Survey Findings

Of our 63 respondents, all (100%) offer employees a 401(k) or other retirement plan (**Figure 1**). Ninety-four percent of employers also offer tuition assistance, and 79% offer employees merchandise discounts.

Many employers offer many types of voluntary benefits including, life insurance (99%), vision insurance (96%), accidental death and dismemberment (AD&D) insurance (91%), and dental insurance (91%) (**Figure 2**).

More than half of respondents (65%) offer employees a parking subsidy, free on-site parking or a pre-tax public transportation subsidy (60%) (**Figure 3**).

**Figure 3: Transportation Perks**

(Number of Responses=62)

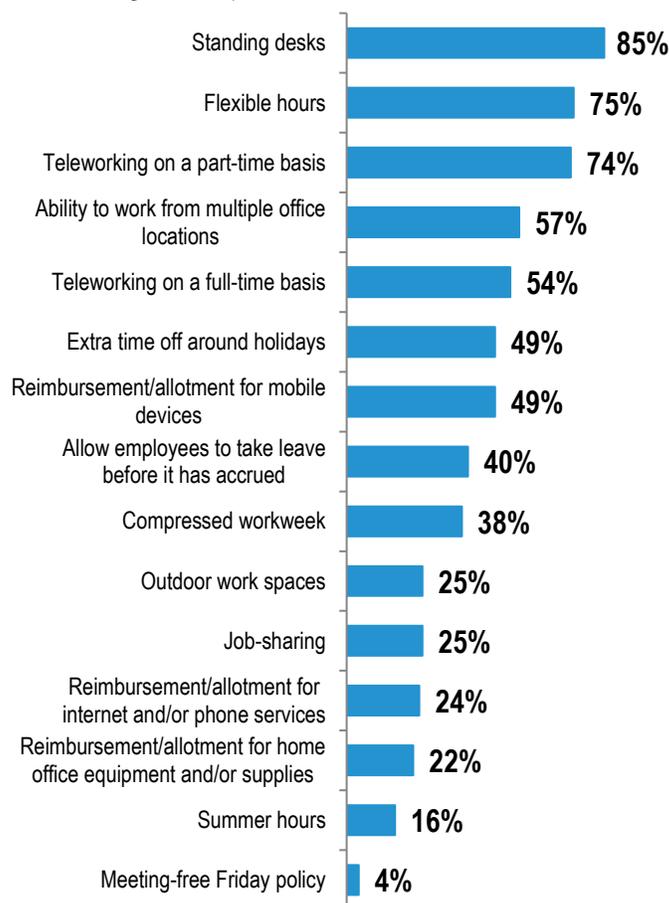

Employers provide many workplace flexibility perks to employees. Eighty-five percent of employers provide standing desks, 75% offer flexible hours and 74% offer teleworking on a part-time basis (**Figure 4**).

Eighty-two percent of employers make on-site fitness centers available to employees, and 75% also give employees access to on-site group fitness classes (**Figure 5**).

## About The *National Business Group on Health®*

The *National Business Group on Health®* (the Business Group) is the nation's only non-profit organization devoted exclusively to representing large employers' perspective on national health policy issues and providing practical solutions to its members' most important health care and health benefits challenges.

Business Group members are primarily Fortune 500 companies and large public-sector employers—representing the nation's most innovative health care purchasers—that provide health coverage for more than 50 million U.S. workers, retirees and their families. The Business Group fosters the development of a safe, high quality health care delivery system and treatments based on scientific evidence of effectiveness. Business Group members share strategies for controlling health care costs, improving patient safety and quality of care, increasing productivity and supporting healthy lifestyles.

*National Business Group on Health®* is a registered service mark of the *National Business Group on Health®*.
